

# Little people in good hands

## At present, company childcare is not a not a priority in your company?

Let us convince you of the opposite.

Because rethought, corporate childcare is effective, profit table and fully in line with the trend.

### As an employer, you invest with a return, because you achieve a:

- higher productivity
- effective staff retention higher
- attractiveness on the personnel market - especially effective in the case of a shortage of skilled workers Company childcare is a demonstrably profit table investment!

#### ► **Company childcare is a demonstrably profit table investment!**

### The childcare you offer as an employer is attractive for your employees

- No need to look for a place: Currently about 20,000 daycare places are missing in Munich
- Work and family are easier to reconcile thanks to working time-oriented opening hours
- More money in the family coffers of your employee parents
- Security and individual support through small group sizes (max. 12 children per location)
- Bilingual language support for the children A childcare offer by the employer increases

#### ► **A childcare offer by the employer increases employee satisfaction - guaranteed**

### little kids education rethinks and redesigns corporate child care
